Career Objective

Analytical and detail-oriented graduate with a **Bachelor's Degree in Mathematics**, seeking opportunities in data analysis, research, or related technical roles. Strong problem-solving skills, statistical knowledge, and logical reasoning ability, with an interest in applying mathematics to real-world challenges and contributing to innovative solutions.

Education

Bachelor of Science in Mathematics

University of Helsinki, Finland

Graduated: 2018

Key Coursework: Probability & Statistics, Linear Algebra, Mathematical Modelling, Data Analysis, Differential Equations, Numerical Methods.

Work Experience

Data Annotation Specialist

OneForma (Remote) | 2022 – Present

- Labeled, categorized, and annotated datasets to support AI and machine learning model development.
- Worked on text, audio, and image annotation projects ensuring high accuracy and quality standards.
- Collaborated with global teams to meet deadlines and project requirements.

Mathematics Tutor

Freelance | 2018 – 2021

- Provided one-on-one and group tutoring sessions in algebra, calculus, and statistics.
- Helped students improve exam results through structured learning methods.
- Developed simplified teaching materials for complex concepts.

Key Skills

- Data Annotation & Quality Control
- Statistical Analysis & Problem Solving
- Data Interpretation & Visualization
- Mathematical Modelling
- Programming: Python, MATLAB, R (basic proficiency)
- Logical Reasoning & Critical Thinking
- Attention to Detail

Languages

- English – Fluent
- Finnish – Basic (A2)
- Norwegian – Basic
- Spanish – Intermediate
